Active Supervision

Supervision is more than watching children play & learn.
It is more than observing.

- Limit contact with other adults.
- Keep telephone conversations brief & continue to supervise the children.
- Limit the amount of time spent on the web.
(facebook, Farmville, myspace etc)

What do the children do while you prepare meals?

What do you usually do while the children play?

What changes can you make to increase supervision?

Advertisement

- Child care centers & type B providers choose to advertise utilizing the web. (Websites, Facebook, Newspapers etc.)
- Please create a photo release form to be completed by caretakers prior to submitting a photo of the child(ren).
- Please keep in mind, you are child care professionals.
