

# Buck

13 YEARS OLD

*"I can't wait until I can have an iPhone!"*

Buck is super fascinated by technology. He loves to ask Siri questions and to discover all the interesting things that new apps can do. Buck's other favorite pastimes include playing basketball, cooking, watching television & playing videogames. Buck doesn't mind school. He enjoys math because it comes easy to him. Buck would love to take a trip to Florida someday to see the ocean. His favorite food is pizza.

Buck is a bit of a homebody. He would rather stay in and play cards or Monopoly than be out and on the go. Buck is very focused on having a family who can meet his basic needs. He believes that parents should be respectful and caring toward their children. Buck would like to be an only child. Because he seems to connect more with females, Buck prefers a family with two moms. However, he is also open to other family structures. Buck does well with animals and lights up at the thought of having a pet dog. Could you be the family to bring the joy back into Buck's life?
